

ROSWELL ADULT LEARNING CENTER
VOLUNTEER PROFILE
www.roswellalc.org

Are you interested in becoming involved with some of the many computer classes we offer at the Roswell Adult Recreation Center at 830 Grimes Bridge Road, in Roswell?

Our instructors, by using the student manual, guides the students through the information and exercises for each lesson, following the lesson format. In addition, we are always looking for coaches to assist in the class. A coach **assists** students during the class by keeping them on track as the lesson proceeds.

Current classes include (but are not limited to): Computer Basics, Internet & Email, Genealogy, Digital Photography E-Bay, Facebook, iPad, all the Microsoft Office Suite of programs and various other one-day classes. In addition, if anyone is interested in teaching a new class, we welcome suggestions. See our current class information and schedule at:

<http://www.roswellslc.org/rscalendar.htm>

Please complete the information below and we will send you welcome information and add you to our roster of volunteers. You can either email this form to pres@roswellalc.org or drop it off at the ARC front desk. Each quarter you will receive a list of the scheduled classes where you can sign up to coach one or more classes.
